

Sustainability Problems

Evaluation of "The Matrix" Presentation and Wiki Post

Name _____

1. Is the collage striking, unpredictable and memorable?
2. Does the collage have a caption that explains it, briefly articulating the main point of the presentation?
3. Does the text identify a particular problem in the matrix of problems that make environmental sustainability difficult – a problem that at first glance may not seem to be a sustainability problem?
4. Does the text provide compelling supporting detail – on the nature of the problem, on stakeholders, etc.?
5. Does the text indicate how the problem could be addressed, and how this would advance environmental sustainability?
6. Does the presentation demonstrate in-depth engagement with its (at least three) academic references -- beyond the abstracts?
7. Do supporting links provide additional, useful information on the problem?
8. Is the on-line presentation effectively organized?
9. Are there appropriate citations throughout, for images as well as for information and quotations in the text?

Was the oral presentation compelling, well organized and well timed (at five minutes)?
